

We are very grateful indeed to Trespass for their continued support.

You will be pleased to hear that all athletes selected to the Team and Development Squad will again receive clothing given by Trespass. These will be for use not just at the international event(s) to which you have been selected, but should be worn at every possible suitable opportunity at ski-related events and occasions (with the understanding that club clothing should take precedence at club events such as the BARSC Championships, if the club requires), and in particular in photographs.

You will understand that agreements of this sort always carry obligations for both parties, and we are bound by contract to the following obligations for the Team/Squad:

- The Team and Development Squad will wear Trespass products and display the Trespass logo on training and racing garments, including (but not limited to) while participating in competitions, races or other sporting events and while having photographs taken.
- Trespass clothing may not be modified; other logos may not be added.
- The Team & Development Squad shall not bring the Sponsor into disrepute.
- It is a condition of the Sponsor providing Products that the Products are used solely by the Team and Development Squad and that such Products are not sold or otherwise disposed of within Twelve (12) months of delivery by the Sponsor.

I must emphasise these conditions and obligations, and trust that you will all recognise their importance.

Jenny Shute, September 2004.
